

Ring Sizer

Instructions:

- Print and cut out ring sizer. Cut small slit that is marked with an arrow.
- Place ring sizer comfortably around finger by slipping pointed end through the slit, numbers facing out.
- Secure the ring sizer by pulling the pointed end snugly around your finger like a belt, tight but can still move it around. Be sure it's not too tight or too loose.
- Your approximate ring size should be the number that appears where it says 'Read Size Here'!

Measure your finger by wrapping a string around it. The length of the string that makes exactly one loop around, and use the chart below for reference.

If the finger is not available for measuring (ie a surprise gift), use a ring from the individual's current jewelry collection. Place the ring on a circle within the chart below. The correct circle size should fit right against the inside edge of the ring.
